

The Election Audit Summit is a collaboration between the [MIT Election Data & Science Lab](#) and the [Caltech/MIT Voting Technology Project](#). The [Election Audit Summit](#) (EAS) provided a space for academics, election officials, data and social scientist, activists, and the public to discuss new strategies in the field of post-election auditing. Over the course of seven sessions, participants heard from panelists that discussed key issues and perspectives from across the scientific, policy, and legal worlds¹.

The EAS was organized by:

- [R. Michael Alvarez](#) (Caltech)
- Jennifer Morrell (Democracy Fund, [Election Validation Project](#))
- [Ronald Rivest](#) (MIT)
- [Philip Stark](#) (UC Berkeley)
- [Charles Stewart III](#) (MIT)

Introduction: Charles Stewart, III (MIT)

Dr. Stewart began the Summit by explaining that the EAS was born out of the 2016 election, and clouds that hung over that election, namely cyber-attacks and methods of vote tabulation. Dr. Stewart pointed to three examples since 2016 (Virginia, Nov. 2017; Los Angeles County, June 2018; and Broward County, Florida, Nov. 2018) which prove that the nation needs more efficient and effective means of auditing elections.

Dr. Stewart laid out the three themes of the conference: 1) Risk-Limiting Audits (RLA); 2) Putting post-election audits in a broader context of election audits; and 3) Integrating election audits and quality assurance more thoroughly in to elections- How do we get to that point?

Day 1, Session 1: Current Status of Post-Election Auditing and Recount Practices

Presenters: R. Michael Alvarez, Caltech; Jennifer Morrell, Democracy Fund; Philip Stark, UC- Berkeley; Dylan Lynch, National Conference of State Legislatures.

Dr. Alvarez began the session by giving an overview of some basics of election audits, including terminology (Recount vs. post-election ballot audit, fixed vs. risk limiting audits, ballot audits vs. procedural audits vs. comprehensive audits). He noted that audit requirements vary greatly by state but that 30 states and the District of Columbia require some sort of fixed audit. Only 3 states currently require an RLA. He noted that post-election audits are important because they can help confirm the outcome of an election as well irregularities, abnormalities, and fraud in the voting process, as well as increase voter confidence in the election. Dr. Alvarez ended by noting the importance of comprehensive audits, which can be costly, but can point out problems in other areas of election administration (ballot design, voter registration, polling place problems, etc.).

Jennifer Morrell spent years working in state and local elections in Colorado. She was recently hired by the Democracy Fund to head up its new Election Validation Project (EVP). As part of the EVP She is working on a manual for election official on administering RLAs, entitled, "Risk Limiting Audits: A Practical Guide for State and Local Election Officials," which she expects to be published in early 2019. She pointed out that there are gaps in audits, such as uniformity across election bodies, and no one

¹ It is important to note that for each session, each speaker gave a presentation or talk, as opposed to a question-and-answer panel with a moderator. If there was time at the end, the presenters may have taken questions but did not always. There were no moderators for each session, instead, one of the organizers listed above introduced the upcoming presenters. Copies of Power Point presentations are linked on the EAS website, <https://electionlab.mit.edu/election-audit-summit>.

governing body to set standards. She also stated that other parts of the election process, not just voting equipment, should be audited also. Finally, she argued that audits ideally should be performed by professional auditors and quality control experts.

Phillip Stark is one of the nation's leading experts on RLAs. His presentation started by noting the importance of a durable, trustworthy, and verifiable paper trail. Dr. Stark gave an overview of RLAs and Bayesian audits, which both take a statistical approach to post-election audits. Dr. Stark recommended that everyone read his article *A Gentle Introduction to Risk-Limiting Audits*, which can be found in the "Further Reading" section of the EAS website, or here: <https://www.stat.berkeley.edu/~stark/Preprints/gentle12.pdf>.

Dylan Lynch gave a brief overview of the work that the [National Conference of State Legislatures](#) (NCSL) does. He then gave a breakdown of what states require what, if any, type of post-election audit. Currently only three states- Colorado, Rhode Island, and Virginia, require RLAs, while 31 require a traditional, or "fixed" audit, 10 require no post-election audit, and 6 require some other form of an audit.

Day 1, Session 2: New Statistical Approaches to Auditing Vote Tabulation and Recounts

Presenters: Ron Rivest, MIT; Walter Mebane; University of Michigan; Emily Beaulieu, University of Kentucky

Ron Rivest compared the statistical approaches to RLAs, Bayesian audits, and sampling with k-cuts, showing the differences in what each is trying to prove (probability that reported winner is incorrect, vs. probability that reported winner would lose in a full recount) and the limits on being able to perform each.

Walter Mebane, Jr. spoke on the topic of using statistical methods for election forensics, which differs from audits, to determine if the results of an election accurately reflect the intent of the electors. Election forensics encompass all areas of fraud, but he stresses that fraud can be hard to differentiate from other behavior or patterns that are not intentional but still abnormal or problematic. Election forensics can be used in almost any aspect of elections, and social media (namely Twitter) has given election forensics a new tool for analysis. Dr. Mebane has done extensive research on election forensics internationally, and gave many examples from Kenya, Honduras, and Russia.

Emily Beaulieu spoke on international perspectives on election audits & statistics. She began by differentiating between a recount and an audit. Her definition of an audit differed from other presenters in that her definition states that allegations of fraud or malpractice are investigated. She gave an overview of some basics of performing an audit, and shared various audit experiences in Haiti, Honduras, Venezuela, and Kenya.

Day 1, Session 3: What Colorado Can Teach Us about Post-Election Audits

Presenters: Hillary Hall, Boulder County Elections; Neal McBurnett, Independent Consultant; Hilary Rudy; Colorado Secretary of State; Pam Anderson, Colorado County Clerks Association

Hillary Hall gave brief presentation on the evolution of elections in Boulder County, CO, from the implementation of HAVA in 2006 to an all vote-by-mail system and conducting the nation's first RLAs. She advises on the pros and cons of conducting an RLA.

Neal McBurnett is an independent consultant who worked on the Colorado RLA project with Democracy Works. He presented on lessons learned from his experiences in Colorado, including a 10-item, very

detailed, protocol checklist for implementation. He states that there needs to be governing oversight of RLAs, and other challenges that remain with RLA implementation.

Hilary Rudy is the Colorado Secretary of State who oversaw the implementation of RLAs in Colorado. She presented on successful ways to implement such a change in terms of training. Trust and frequent, clear communications are key, she stated. Layered training (general concepts and theories, technical steps, process changes, hands-on practice) and debriefing and improvement allow for staff to slowly understand a major change, and gives an opportunity for making changes and improvements.

Pam Anderson is the Executive Director of the Colorado County Clerks Association. She gives a history of the legislation passed in Colorado since HAVA in 2006 to get Colorado to where it is today. Her office, along with the Colorado Secretary of State, produced a RLA County Playbook to help counties implement RLAs.

Day 1, Session 4: Auditing Stimulation

Led by Professor Philip Stark, this session involved a hands-on exercise intended to provide insights into the statistical principles that support risk-limiting post-election auditing. Summit participants were divided up into teams and performed a mini-RLA using a deck of cards.

Day 1, Session 5: Looking Beyond Colorado: Changing Technology and State Policy.

Presenters: Jay Bagga, Ball State University; Jerome Lovato, US Election Assistance Commission; Robert Giles, New Jersey Division of Elections; Mark Lindeman, Verified Voting.

Jerome Lovato spoke on the use of technology in post-election audits. Current limitations to implementation include varying state-level certification requirements, lack of paper records in some states, and confusing exports from software. Jerome gave an overview of current voting system design, and what technology might look like in the future.

Jay Bagga gave an overview of the first RLA pilot that was conducted in Indiana, which took place in May 2018, as well as brief explanation of the legislation that led to the RLA.

Mark Lindeman spoke about the software that is available to help with implementing and conducting an RLA. He talked about his experience assisting as software with the pilot-RLA in the City of Fairfax, VA that occurred in August, 2018. He stated that there are many different types of software available, many of which are open-source. His take-away message was that the statistics involved in conducting an RLA do not consume the operation, and should not scare people away.

Robert Giles spoke on how New Jersey used HAVA funds to purchase 3 new voting systems in 3 different counties to test out what works best for implementing an RLA. New Jersey, which does not have paper ballots, plans to purchase new voting systems with the ability to perform RLAs.

Day 2, Session 1: New Directions for Comprehensive Auditing and Forensics

Presenters: Josh Benaloh, Microsoft; R. Michael Alvarez, Caltech; Michael McDonald, University of Michigan; Whitney Quesenbery, Center for Civic Design

Josh Benaloh gave a brief overview of End-to-End (E2E) Verifiable Audits, and compared to RLAs and Bayesian Audits. E2E verifiable audits allow anyone (election officials, the media, a candidate, any

voter) to detect fraud and inaccuracies in election results. An election is E2E verifiable if voters can verify that their vote was recorded correctly, and anyone can verify that the votes are tallied correctly. An E2E verifiable audit system though is harder to build and harder to understand and explain.

Dr. Alvarez spoke about the need to audit not just voting results, but all aspects of elections, a process known as comprehensive auditing. He spoke about the Orange County, CA comprehensive pilot project that he is assisting with. More information on this pilot project can be found at <https://monitoringtheelection.us/>.

Dr. McDonald spoke about the need to audit the assignment of registered voters to districts and precincts, citing two examples from 2017 and 2018 where voters were given the wrong ballots. After a brief overview of ways to assign voters to districts and precincts, he discusses using a two-pronged approach to audit voter districts and precincts that includes the use of Geocode and GIS.

Whitney Quesenbery presented on the importance of ballot design in the election process, emphasizing that bad ballot design can fool even the brightest of voters. She pointed out the EACH ballot best practices document as a guide for anyone designing ballots, and that with clear instructions, complex procedures can make sense.

Day 2, Session 2: From Here to There

Presenters: Ned Foley, Ohio State University; Ben Adida, Voting Works; Mat Masterson, US Department of Homeland Security; Bill Kresse, Chicago Board of Election Commissioners

Ned Foley spoke briefly on his involvement in the Election Law project at the American Law Institute. The project has three focus areas: 1) the need for uniformity and standardization in certification in elections, 2) uniform standards for recounts, and 3) standards and procedures for judicial contest of election results.

Ben Adida spoke on how audits fail, which is usually due to overcomplexity. He explained that all instructions and explanations must be simplified as best as possible, and that audits must be standardized to avoid this, including a checklist of steps to follow. Once those two steps are complete, the election administrators should step back and ask themselves, “how can this fail?”

Mat Masterson gave varying closing thoughts from DHS on the summit, including:

- That voters should not have to give up their accessibility for auditability;
- Academics who say that “anyone can understand the math” are not being empathetic;
- DHS has a goal of 100% auditable records by 2020;
- Human element is the greatest risk in the election process;
- There is not one thing or rule that limits all risks;
- Governments need to invest more in their local elections.

William Kresse talked about how his background in law, as a CPA, as an academic, and finally, as the Elections Commissioner for the Chicago, led to his notoriety as “Professor Fraud.”

1. Announcements & Important Meetings

MIT Election Data and Science Lab Election Audit Summit

On December 6th-7th, Tracey Hartman attended the first-ever Election Audit Summit, hosted by the MIT Election Data and Science Lab and the CalTech Voting Technology Project. The Summit brought together election administrators from the local, state, and federal levels, academics in the fields of law, statistics, sociology, and economics, and election and voting advocates from a variety of organizations. The purpose of the summit was to discuss new strategies that are developing in the field of post-election auditing. A summary of the two-day event is provided in the meeting folder.

2. 2018 General Election

Board of State Canvassers

The Board of State Canvassers met at the State Board of Elections' office on December 11th to certify the results of the 2018 Gubernatorial General Election. State Treasurer, Nancy Kopp served as Chairman of the Board and was joined by Comptroller Peter Franchot and Secretary of State John Wobensmith. The Board members thanked the thousands of election judges, the local boards of elections and the State board staff for the hard work to conduct the election.

Post-Election Ballot Tabulation Audit

Automated Software Audit - Over the course of three weeks, Tracey Hartman gave five webinars to candidates on how to use and view the web portal for the automated software audit of the 2018 General Election. These candidates were able to view the ballots for themselves and make their own determinations on whether or not to request a recount. With the certification of the election results on December 11th, the public portal for the automated software audit went live. The portal is available from the "Ballot Audit Plan" section of our website.

Manual Audit - We continued to fine tune how each county will conduct its manual ballot tabulation audit, and the Caroline County Board of Elections conducted the first of the manual audits on January 8th. Nikki Charlson, Tracey Hartman, and several Election Directors and staff from other local boards attended. The manual audit verified the accuracy of the voting results for Comptroller in Caroline County. Overall, the audit went smoothly, and we will be clarifying the procedures and instructions before the next manual audit. The next scheduled manual audits are Carroll County's audit on January 14th and Charles County's audit on January 15th. Tracey plans to attend both of these audits. All manual audits are required to be completed 120 days after the 2018 General Election.

Post Election Maintenance

After the Board of State Canvassers certified the election results, the voting equipment, including the ballot scanners, ballot marking devices and electronic pollbook, were released. The local boards have begun conducting the post-election maintenance on this equipment, which includes examining the equipment and performing any required maintenance. Minor changes were made to the maintenance procedure following lessons learned from the 2018 Primary Election in June.

If any unit requires repair, ES&S will perform that repair. Ballot scanners and ballot marking devices are repaired at the local boards' warehouses, and pollbooks are repaired

by ES&S at the ES&S warehouse in Bowie. All post-election maintenance should be complete by mid-April.

Comprehensive Audit

The voting systems team has been gathering data for the 2018 General Election post-election comprehensive audit. This includes verifying the opening times for all the polling places and identifying the number of “offline” provisional ballots that were issued. This follows the post-election audit and verification that took place after the election.

Ballot Marking Device Use for the 2018 General Election

3.11% of the ballots cast in the 2018 General Election were marked using the ballot marking device. This is slightly less than the 2018 Primary Election, when 3.18% of the ballots cast were marked using the ballot marking device. As with the primary election, the county with the highest usage was Kent County, followed by Prince George’s County. Those precincts that experienced heavy usage in the primary election tended to have higher usage in the general election.

Ballot Deployment in Prince George’s County

At the December meeting of the Prince George’s County Board of Elections, Alisha Alexander, Election Director, provided a written report in response to reports of precincts that ran out of ballots in the 2018 General Election. Her report is included in the meeting folder.

Our review of the data showed similar findings.

1. Data from the voting system and electronic pollbooks show that 24 of the county’s 242 precincts ran out of ballots.
2. Turnout in 22 of these precincts was higher than the 2016 General Election. The increase in turnout ranged from 0.5% increase to over 11% increase.
3. The percentage of spoiled ballots (as a percentage of votes cast) ranged from 3% to 9.5% in these precincts. Ballots can be spoiled for a variety of reasons, including mistakes by voters and ballots that were torn when removed from the ballot stubs.

In addition to reviewing ballot quantities with the Prince George’s County Board of Elections, we will look for solutions to track ballot usage during voting hours and provide for more rapid deployment of necessary supplies.

3. Election Reform and Management

House Bill 73 - Election Law - Election Judges - Minimum Age

House Bill 73 was passed in the 2017 General Assembly and allowed 16-year-old persons to be an election judge. As required by the law, a survey was sent to the local boards after the 2018 Primary and General Elections in regards to their experience with 16-year-old election judges. Erin Perrone is in the process of compiling the responses to the survey into a report that includes the findings and recommendations concerning the value of 16-year-old election judges. The report is due to the Senate Education, Health, and Environmental Affairs Committee and the House Committee on Ways and Means by February 1st.

2020 Election Judges’ Manual

Erin Perrone will be reconvening the members of the Election Judges’ Committee. Work will begin early next month on revisions to the Election Judges’ Manual for the 2020 elections.

4. Voter Registration

On December 18th, Roger Stitt retired. Roger was with the State Board for 12 years and a valuable member of the voter registration team. Roger will be missed, but we wish him the best on his well-deserved second retirement.

MVA Transactions

During the month of December 2018, MVA collected the following voter registration transactions:

New Registration - 28,474

Residential Address Changes - 29,786

Last name changes - 17,823

Political Party Changes - 10,508

Non-Citizens

Submitted to the Office of the State Prosecutor - 5 to be submitted by 1/11/2019

Removal of non-citizens - 5

Removal of non-citizens who voted - 0

Removal of non-citizens who voted multiple times - 0

Non-citizens forwarded to the Office of the State Prosecutor - 5 to be submitted by 1/11/2019

The Prince George's County Board of Elections received a letter from the Jury Commission that a clerical error reporting an individual was not a U.S. citizen when in fact the individual is a U.S. citizen. That information was forwarded to the Office of the State Prosecutor.

MDVOTERS

On January 8th, Nikia Wilbon-Turner and Mary Wagner attended the annual planning meeting between SBE and the Sidus Group to prioritize the 2019 calendar.

Address Confidentiality Program

On December 18th, Mary Wagner met with staff from the Secretary of State's Safe at Home Program to discuss lessons learned and how to better facilitate the programs participants.

5. Candidacy and Campaign Finance (CCF) Division

The CCF Division produced and issued commissions of election for every winning candidate in the State. Additionally, prior to the release of the commissions, the CCF Division verified that the elected officials did not owe late fees or a report.

On January 16th, the 2019 Annual Report is due for all political committees. Currently, the CCF Division has over 2,100 active political committees. Failure to file timely will result in a fine of \$10 per day, up to \$500. The late fee must be paid with campaign funds.

The fundraising prohibition began on January 9th at 12 noon for all current State office holders. The office holders prohibited from raising or depositing funds are the Governor, Lieutenant Governor, Attorney General, Comptroller, and members of the General Assembly.

6. Project Management office (PMO)

Inventory: Excess Equipment Disposal

We continue to work with Department of General Services (DGS) to auction off, recycle, or send to trash the equipment and supply items located in the central warehouse. After making several attempts to sell the TS-R6 black cases, SBE is using DGS' trash contractor to dispose of the black cases. To date, 11,787 of the 17,200 black cases have been picked up by the trash contractor.

Inventory Management

There are several tasks underway to make needed updates to the inventory system and ensure a greater level of accuracy of inventory data.

2020 Pollbook Project

The PMO started work on the 2020 Pollbook Project. In the pre-planning phase, we are performing analysis and organizing information and data in preparation for the planning phase for the project which is expected to start this month.

Other

The warehouse facility renewal was approved by the Board of Public Works on January 2nd. DGS will provide the renewal lease documents, and SBE will sign them once we receive them. The renewal start date is February 1, 2019.

Prince George's County Board of Elections

Ballot Allocation Review and Summary

PROBLEM

Many of the precincts referenced in the attached spreadsheet exhausted their supply of ballots during the Tuesday, November 6, 2018 Gubernatorial General Election because the Prince George's County Board of Elections (PGCBOE) staff underestimated voter turnout and as such, the number of ballots that should have been disseminated to each Election Day precinct.

Supplemental supplies of ballots were disseminated to the polling places that requested them. Because of PGCBOE's internal dispatch and dissemination process and the time that PGCBOE received the requests for ballots, many were transported during rush hour traffic (5pm – 7pm) which delayed deliveries.

METHODOLOGY

PGCBOE utilized the 2016 Presidential General Election turnout statistics to determine both its Early Voting and Election Day ballot allocation. Historically, turnout for a Gubernatorial Election, at the precinct level, is significantly lower than that of a presidential election. This theory was substantiated after analyzing the voter turnout data from the 2014 and 2016 election cycles. In addition, in November 2016, 23% of the electorate voted early in comparison to 17% in November 2018.

IMPACTED POLLING PLACES

Based on the data received from the Election Judges and/or the electronic pollbooks and the voting unit scanners, the following precincts requested additional ballots because they either ran out of paper ballots or ran low. (See the attached spreadsheet.)

FINDINGS

- Historical data can no longer be used as a means to determine the number of ballots that should be allocated to each precinct. There are precincts where the 2018 Gubernatorial General Election had higher voter turnout percentages than the 2016 Presidential Election.
- Chief Judges reported that voters frequently made mistakes and were reissued ballots.
- Communications between the Election Day Operators and the delivery technicians were not streamlined, which may have caused delays in ballot deliveries.
- Rush hour traffic contributed to delays in ballot deliveries.

LESSONS LEARNED

PGCBOE staff will conduct a series of "Lessons Learned" meetings beginning in January 2019. However, it has been preliminarily determined that the following practices will be instituted in future elections:

- Ballots will be allocated based on the number of registered voters assigned to each polling place. (This will include accounting for newly registered voters that will register and vote on Election Day beginning in 2020.)
- The ballot allocation spreadsheet utilized in future elections will be forwarded to the Maryland State Board of Elections for review.
- Election Day Operators and delivery technicians will be retrained to ensure that they understand the importance of expediting ballot deliveries. Training will emphasize that all requests for ballots are a priority.
- Election Day operators will be required to periodically document and monitor the number of ballots each precinct has on hand.
- Chief Judges will receive additional training on how to identify potential ballot shortages (especially when dealing with multiple ballot pages). This will include the possibility of shrink-wrapping and placing a red label on the ballots that reads “CALL IMMEDIATELY, IT’S TIME TO ORDER ADDITIONAL BALLOTS!”
- Centralize the ballot dissemination process. There will be a minimum of two point persons who will receive all ballot requests. Those individuals will coordinate pulling ballots, recording the time that the ballots are disseminated and ensure that the process to get ballots out of the door doesn’t exceed 15 minutes. They will also be responsible for following up with the Chief Judges to verify that the ballots were delivered and will also record the approximate time they were delivered.
- Establish communication methods between the Election Day Operators and delivery technicians that will streamline processes to expedite deliveries. Global Positioning Systems (GPS) will be utilized to determine an estimated time of arrival to the precinct.
- Work with Prince George’s County Sheriffs and other public safety offices to determine if they can provide transportation solutions in the event of emergencies and/or gridlocked traffic.

CONCLUSION

Despite the ballot delivery delays, Chief Judges reported that the majority of voters stood in line and waited for ballots to arrive. As a result, every voter who was in line when the polls closed at 8pm was able to cast a ballot.

In keeping with PGCBOE’s mission to ensure that every voter will have an opportunity to vote in an efficient manner, PGCBOE will take every precaution to ensure that the ballot shortages experienced during the November 6, 2018 Gubernatorial Election does not occur in future elections.

ASSISTANT ATTORNEY GENERAL'S REPORT

January 10, 2019

1. *Benisek v. Lamone*, No. 1:13-cv-03233 (U.S. District Court, D. Md.). This case involves claims that the State's congressional districting map is an unconstitutional political gerrymander. On November 7, 2018, the court granted the plaintiffs' motion for summary judgment, denied that of the defendants, and awarded judgment to the plaintiffs. On November 15, 2018, the defendants filed a notice of appeal, and plaintiffs consented to a stay of the court's order in exchange for an expedited schedule for preliminary submissions in the Supreme Court. On January 4, 2019, the Supreme Court ordered briefing on the merits and directed the parties to agree on an expedited briefing schedule in advance of a March hearing. Based on the schedule to which the parties subsequently agreed, the defendants' opening brief is due February 8, 2019. The case is likely to be heard on March 27, 2019.

2. *Fusaro v. Davitt et al.*, No: 1:17-cv-03582 (U.S. District Court, D. Md.). Plaintiff Dennis Fusaro brought a complaint in federal court alleging that Maryland violates the First and Fourteenth Amendments by limiting access to the voter list to Maryland voters and only for purposes related to the electoral process. On September 4, 2018, the State defendants' motion to dismiss the complaint was granted, and the plaintiff appealed. Briefing in the Court of Appeals is now complete, and the case has been tentatively scheduled for argument during the third week of March.

3. *Johnson v. Prince George's County Board of Elections*, No. CAL16-42799 (Cir. Ct. Prince Georges Cnty.). No change from the last update. This case involves a challenge under the U.S. Constitution and Maryland Constitution and Declaration of Rights to the SBE's alleged failure to provide information and access to voter registration and voting resources to eligible voters detained by the Prince Georges County Department of Correction during the 2016 election. The case had been originally filed in the Circuit Court for Prince Georges County but was removed on the basis of the federal claims asserted by the Plaintiffs. On February 27, 2018, the U.S. District Court for the District of Maryland granted SBE's motion to dismiss the Plaintiffs' federal claims, declined to exercise jurisdiction over the state claims, and remanded the case to the Circuit Court for further proceedings. The parties are awaiting further direction from the court.

4. *Claudia Barber v. Maryland Board of Elections*, No. C-02-CV-17-001691 (Cir. Ct. Anne Arundel Cnty.) On January 25, Ms. Barber appealed from the Circuit Court's January 11 dismissal of her complaint. Ms. Barber sought damages and judicial

review of, among other things, the State Board’s decision not to issue a declaratory ruling permitting her to use campaign funds to pay for litigation costs she incurred in her unsuccessful attempt to retain her position as an administrative law judge in the District of Columbia. Ms. Barber was ruled ineligible for that position due to her candidacy in 2016 for Judge of the Circuit Court for Prince George’s County, Maryland. The appeal is fully briefed, and on December 18, 2018 the Court of Special Appeals ordered that the appeal would be adjudicated without oral argument.

5. *Judicial Watch v. Lamone*, No. 1:17-cv-02006-ELH (U.S. District Court, D. Md.). No change from the last update. This case involves the denial of access to Maryland’s voter registration database. Under Maryland law, access to the voter registration list is limited to Maryland registered voters and only for non-commercial, election-related uses. Judicial Watch—an elections watchdog group located in Tennessee—requested Maryland’s voter registration “database” and was denied because it was not a Maryland registered voter. Judicial Watch filed suit, arguing that the database was required to be disclosed under the federal National Voter Registration Act. Discovery has closed and the plaintiffs’ summary judgment motion is due January 25, 2019.

6. *The Washington Post, et al. v. McManus, et al.*, No. 1:18-cv-02527 (U.S. District Court, D. Md.). This case presents a challenge by a coalition of newspaper publishers that maintain an online presence to certain provisions of the recently-passed Online Electioneering Transparency and Accountability Act (the “Act”). Specifically, the plaintiffs challenge the constitutionality of the Act’s imposition of disclosure obligations on newspaper publishers that accept online political ads, its use of terms in defining those obligations that are allegedly vague and overbroad, and its empowerment of the Attorney General to pursue injunctive remedies for violations of the Act. The plaintiffs also contend that the Act is preempted by the federal Communications Decency Act. On November 16, 2018, the court held a hearing on plaintiff’s motion for preliminary injunction, and on January 4, 2019, that motion was granted on the ground that plaintiffs’ “as applied” constitutional challenge to the statute was likely to succeed. The court has set a conference call with the parties for January 18, 2018, to discuss next steps.

7. *Segal v. Maryland State Board of Elections*, No. 1:18-cv-2731 (U.S. District Court, D. Md.). On September 5, 2018, Jerome Segal filed a complaint seeking a preliminary and permanent injunction requiring the State Board of Elections to accept the petition filed in support of the creation of the Bread and Roses party, and to include plaintiff’s name on the general election ballot as the Bread and Roses Party’s nominee for

the U.S. Senate contest. On September 18, 2018, the court denied plaintiff's requested preliminary injunction, on October 11, 2018 the court of appeals affirmed that ruling, and on November 14, 2018, the court of appeals denied plaintiff's request for *en banc* review. On January 4, 2019, the district court ordered plaintiff to submit a status report by January 18, 2019, indicating if the case can be dismissed as moot.

8. *Hanna v. Maryland State Board of Elections*, No. C-02-CV-002660 (Cir. Ct. Anne Arundel Cnty.). On September 5, 2018, plaintiff Willie Hanna filed suit to challenge the State Board's rejection of his petition candidacy for the contest for Delegate representing the 40th legislative district, on the ground that he had not submitted sufficient verifiable signatures in support of his petition. Mr. Hanna used a petition form that omitted several components that are required by Maryland law. On September 11, a summons was issued but to date only the complaint has been served on the Defendant. On October 11, 2018, Defendants filed a motion to dismiss or, in the alternative, for summary judgment. On December 21, 2018, defendants filed a supplemental memorandum in support of their motion to dismiss. No response in opposition to the defendants' motion has been filed, although plaintiff has indicated that he still intends to litigate the suit. The Court has set a hearing on the motion for January 17, 2019.

9. *Johnston, et al., v. Lamone*, No. 18-cv-3988-ADC (D. Md.). On December 28, 2018, the Libertarian Party of Maryland (the "Party") and its Chairman, Robert Johnston, filed a lawsuit alleging that the statutory scheme governing the official recognition of minor parties in Maryland, as applied to the Party in its current form, is unconstitutional in at least two ways. First, plaintiffs allege that the scheme violates their First Amendment speech and association rights by requiring the Party to undertake the petition process to re-obtain formal recognition under State law, when there are already over 22,000 Maryland voters currently registered as Libertarians. Second, plaintiffs allege that the statutory standard by which Maryland verifies petition signatures is unconstitutionally strict, in that signatures of known Maryland voters may nevertheless be rejected for failure to comply with technical requirements governing the precise information that must be included by the voter when signing. A response to the complaint is due January 24, 2019.

2018 General Election

Electronic Pollbooks – Election Day Records

The weekend before election day, we discovered that some early voting transactions were not included in the election day pollbooks. The transactions that were not included were a subset of the individuals who used the same day registration or address change process during early voting and individuals who requested an absentee ballot. Statewide, there were 7,313 voters affected by this data issue.

During the weekend before election day, the local boards update the pollbooks with data from early voting and late absentee requests and start issuing to election judges pollbooks and other election supplies. Depending on where the local boards were in their work, some local boards (nine) were able to include the missing transactions in the pollbooks, while others were not. Because nine local boards were able to resolve the data issue electronically, the number of affected voters decreased to 5,530, less than 0.8% of the voters who voted during early voting.

For those local boards that could not resolve the issue electronically, we issued instructions for the election judges and a list of the affected voters by precinct. The instructions required the check-in judges to look for certain information on the check-in screen of the pollbook (i.e., Record update date of 11/02/18 or 11/3/18). If the information was there, the voter had to be issued a provisional ballot.

The day before the election, we learned that the Montgomery County Board of Elections had issued different instructions for their election judges. These instructions required that the judges “check in” the identified voters for that precinct before the polls opened. If the election judges were not able to “check in” all of the identified voters before the polls opened, the election judges were instructed to stop “checking in” these voters and follow the instructions in the printed judges’ manual. Election judges in Montgomery County were not given the instructions we issued.

Memorandum

TO: State Board Members
FROM: Jared DeMarinis, Director
Division of Candidacy and Campaign Finance
DATE: January 10, 2019
SUBJECT: Waiver of late filing fees standards

Enclosed are the waiver requests, which were submitted by campaign committees that have been assessed late filing fees. The attached Waiver Request Information Page contains an overview of each committee as well as the Administrator's recommendation for Board approval on granting a waiver request.

In the past the Board has considered the following facts in determining whether just cause exists to grant a waiver.

- Administrative error of any kind on the part of the Division.
- The lateness is due to extenuating circumstances, i.e. physical illness or death in the family.
- The late report is the first late report and allows the committee to close, or contains minimal financial activity.
- The fee will cause undue financial hardship, if the liability of the fine is the personal responsibility of the officers.
- Computer problems occurred which made timely filing impossible. However, the filer still must have demonstrated a good faith effort to timely file.

Prior to the meeting please review each waiver request. Note the recommendations that you may disagree with or have questions on that you would like to discuss.

Pursuant to Election Law Article §13-337 (b) (3), the State Administrator has denied five waiver request, for the month of January. No Board action is required on the denials. Late fees collected year to date for Late Fee Waivers are \$16,066.90.

Please feel free to contact me at 410-269-2853 if you have any questions.

Reason for Waiver

I request a waiver of this late fee based on the following: I attempted to complete the report and close out the account prior to the 11/20 deadline. I had issues with the online system and was unable to complete the process. I called and left messages seeking assistance from the State board of Elections phone number well before the deadline. The campaign's bank account has been closed since before 11/20 and there are no funds to pay this fee.

I request a waiver of this late fee based on the following:

- 1) I attempted to complete the report and close out the account prior to the 11/20 deadline.
- 2) I had issues with the online system and was unable to complete the process
- 3) I called and left messages seeking assistance from the State board of Elections phone number well before the deadline
- 4) Not only did no one answer the call, no one called back as the messaging indicates they would.
- 5) The campaign's bank account has been closed since before 11/20 and there are no funds top pay this fee

Because I attempted to seek help with an issue with the reporting system, and no one answered or returned my call even though messages explaining the issue were left, I was unable to complete the report prior to the deadline. I feel a waiver is justified in this instance.

Thank you,
Ken Purce

On 10/26/18, I submitted a campaign finance report for the friends of Charles d. Bagley campaign. I actually submitted a duplicate copy to ensure the report would be received.

My wife and I left the following morning for a vacation. Upon returning on 10/31/18, I checked my e-mail, and noticed the 11/20/18 notification. I opened the notification, and after logging in to the campaign account, I noticed there was a late filing notification.

I only discovered this after opening the 11/20/18 notice.

It is for this reason I request any late fees for the 10/26/18 report be waived.

Waiver of late fees for the following Campaign Fund Report(s): 10/26/2018

Total Amount of late fees: \$ 130.00

The basis for the request: This is my very first time I was late for submitting the camping financial report for Mrs. Lockhart. I really truly thought it was submitted. She even double-checked with me and I told her it was submitted. I had printed out the report on 10/26/18 and did not pay close attention that the report did not have preliminary across it. As soon as I got the word from Ms. Lockhart that she received the email that the report was not submitted, I am immediately went into the campaign-finance reporting system and realize I must not have hit the correct button. I submitted the report and spoke with Ms Vickv Smith. She was kind enough to show me where to find the submitted reports online and also where to find the late fee amount for the late report. I am asking the broad to please consider waiving the \$130 late fee. This will not happen again. Thank you for your time.

Re: Waiver of Filing Fees

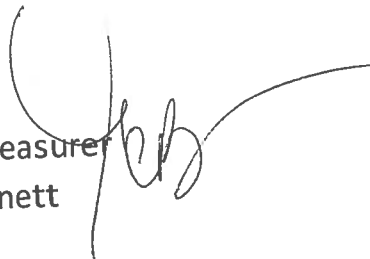

Dear SBE Decision Makers:

I am writing this letter to request a waiver of filing fees for the 11/20/2018 filing date. I physically filed on the date of 11/20/2018 prior to the 12am deadline, but unfortunately it did not show up on SBE's side. I possibly didn't save the 2 items that I submitted for processing or submitted items that did not impact the 11/20/2018 filing date. I did not find this out until I spoke with Erin on the phone after receiving a fee running notice.

I have since made the corrections, with help over the phone with a wonderful, and patient Erin, and now I am at a 0(zero) balance.

I thank you for your time and consideration in this matter and ask that you consider my plea for approval of this letter to waive all fees.

The campaign filed a required report in August 2018, with an ending bank balance of \$0.06. Since we had ceased campaign activity and fundraising, we intended to submit this report as a "final" report, and were under the impression that no additional reporting was required. We received notice that a report was due on 10/26/2018 and was currently late, and \$180 of fees had been accessed. Since we thought that we submitted the previous report as the final report, we were unaware of any additional filing requirement until we received the notice of the fees. We immediately filed the 0/26/2018 report, and have confirmed with SBE staff that this report was correctly marked as a "final" report.

RE: CCF ID: 01012283 Fee Waiver Request

To whom it may concern,

The campaign filed a required report in August 2018, with an ending bank balance of \$0.06. We immediately filed the 10/26/2018 report, and have confirmed with SBE staff that this report was correctly marked as a "final" report. We are sending this letter to request a waiver and abatement of all fees and penalties associated with our campaign finance reports. We appreciate your consideration in this matter.

I would like to thank the Maryland State Board of Elections for the positive experiences I have had while interacting with your staff since my 2014 campaign. Unfortunately, the same can not be said about filing campaign finance reports on your website. I can't remember using the site without experiencing difficulties. According to SBE, Ebony Parran and the notice I received in the mail, my campaign finance report was not received by your office before the last reporting deadline. Rather amazing considering the fact I was prepared to send my campaign finance report to your office an hour before the filing date had begun, but I couldn't because the website had timed-out. The SBE website also indicated I could not send my report until later. During that week I tried sending the report several more times, but experienced even more problems with the website. Thankfully, I successfully sent the report via the website (or so I had thought) prior to the deadline. I am asking the SBE campaign finance division to please waive any filing penalty against my campaign due to the aforementioned issues I experienced. If the board is interested I am willing to share a few suggestions that would make your website more user friendly. Please feel free to contact me anytime. Many thanks to the board for your time and understanding in this matter.

Sincerely,

Scott M. Collier

RE: CCF ID: 01011741

Victoria Molina,

We respectfully request waiver of the late fee assessed on the November 2018 campaign filing report. We had filed the October report and marked it final. Unbeknownst to us at the time there was an error on that report having to do with an already repaid outstanding obligation. The error was for a small amount, purely administrative with no monetary impact, it was an honest mistake made inputting into the software.

We believed we had closed out the campaign properly back in October. All funds had been distributed out. No funds remain and no transactions occurred during the period covered by the November report so we had no idea we had to file a report in November until it was too late to do so timely.

We were instructed by your office to amend the October report to correct the mistake, and to file a blank November report simply to mark it final. We would have preferred to just correct the October report and leave it as the one marked final but we were told that was not possible in the software program. Our discovery of the error and the instruction from your office came after the due date for the November report. We filed it as soon as we realized our error. There was no intent to file late or ignore filing requirements.

This was a small and unsuccessful campaign. There are no campaign funds left with which to pay any fines and it would create a significant personal financial burden to both of us who volunteered out of a sense of civic participation and kindness to help a friend attempt to run for local office. We do ask for your consideration in this case. We are asking that you please accept the November report filing without issuing the penalty.

Thank you for your consideration.

Sincerely,

Andrea Poole Foster

Fee Waiver Request

Deborah Harrington <dharrington4u@aol.com>
To: Ebony.parran@maryland.gov

Fri, Dec 21, 2018 at 10:54 AM

Good morning Ms. Parran,

I am sending this email as an official request to have a late fee waived on the campaign account of Vincent Darryl Harrington, CCF ID: 01010906. As the treasurer, I attempted to close out the account at the time of the 2018 Post-Gubernatorial report but it required information from bank statements that I was not able to obtain from the bank in a timely manner. Therefore, instead of waiting more days to receive in the information I filed another waiver affidavit.

This account has never been late in filing the reports and I am asking for the late fee of \$30.00 to be waived.

Thank you for your consideration in this matter.

Regards,
Deborah Harrington

Hello Ebony,

Thank you for your help with closing the account for Edward Carl Larsen (Citizens for Edward Larsen).

I do apologize, when I filed the report just after we lost the primary election, our account was zeroed out and bank account was closed, I thought I had finished all the steps to end my responsibilities as treasurer.

I hadn't realized there was a final step. I had wrongly assumed we must still be on the email list. When I received the email today notifying me of fees I'd realized something was wrong.

Would you please consider waiving the accumulated fees of \$130? It was an honest oversight on my part.

CCID 01012803

On 11-19-2018 I filed what was what I thought was my final report for my campaign. My campaign is Carl H Magee Jr for Sheriff. Not knowing the program I filed an amendment for the Oct 20 report and not the 11-20 report. I was attempting to close out the campaign by hitting a "close out" button that was on the page which I did and it allowed me to do so without prompting me that the campaign was not in fact closed out. I received an email that said I was being fined for not filing the 11-20-2018 report, which I thought that I had done. I am requesting that the late fees be waived as I have tried several time to close out the campaign, I am just not computer savvy and I need help.

I called The SBE and spoke to a representative who advised that I had not done the 11-20-2018 report yet, that I had just done an amendment to 10-20. I then went into the system again to file the 11-20 and close out the campaign. I was able to see how to do the 11-20 and I thought that I was again had closed out the campaign by hitting the close out button, but I was told it cannot be closed out because there is a negative balance. Again the program never advised that the campaign wasn't closed even in lieu of hitting the close out button. I will again go into the program today and attempt to correct and close out the campaign. I am requesting that the late fees be waived as I have tried several time to close out the campaign, I am just not computer savvy and I need help.

Re: Change of Treasurer

To Maryland State Board of Elections:

Hello this letter is a request for waiver and return of fees in the amount of Pre-General 1 Report due 8/28/2018.
(Payment receipt attached)

Audrey Adams resigned from the campaign in July, and the campaign acknowledged and accepted her resignation with the acceptance of new Treasurer Darian Fludd. The campaign finalized the transition with document exchange, and by updating Maryland Campaign Reporting Information on July 22. This was done by logging into the MCRIS, adding all required information for D. Fludd and selecting the position of Treasurer. The updates of adding and deleting A. Adams were saved and certified at the bottom of the webpage. Upon visually reviewing the registration was updated A. Adams was notified of the update, and MCRIS account registered under K. Malikidogo-Fludd was logged out.

Having updated the account registration previously, I experienced incidents where the registration updates once saved and certified did not appear upon a second login. Prompting the information to be re-entered a second and third time before the saving and certification took effect. As these incidents occurred in the Pre-Primary phase and given my unfamiliarity with the system, I thought my actions were incorrect when indeed it was not I, but the system that was rejecting the information input, saved and certified into the system.

Given these circumstances It is my strong belief that a similar incident is what caused there to be an issue with the change of Treasurer from A. Adams to D. Fludd. Having not updated the system by accepting D. Fludd, D. Fludd did not receive notifications regarding the Pre-General 1 reporting via email and in the mail. A. Adams having resigned no longer had access to campaign financials in order to submit a report and would have been disqualified from doing so as she was no longer a part of the campaign.

I sincerely request that things be checked with the MCRIS technology team to review changes submitted in July, and hope that it may show that the necessary changes were made and systematic issues led to this situation.

Thank you for your time in reviewing this request.

Sincerely,

Kenge Malikidogo-Fludd

I am submitting a request to the Director requesting a waiver of any penalties and fees associated with the late filing of the most recent post election Committee Report. As can be viewed in my files, I earnestly sought to close this account following the primary election in June. I requested, and received, assistance from staff in how to indicate candidate loan debt forgiveness on my report (this was very unclear). Having performed this task, I thought the report was accepted as my "Final Report" and I sent a hard copy letter to the board indicating my desire to forgive all candidate campaign debts which may have remained outstanding.

Subject: Loan Forgiveness/Penalty Waiver Request-McDermott

To: <mequanenet.abaineh@maryland.gov>

Dear Mr. Aineh,

Please allow this email to serve as my official forgiveness of any and all loans I made to my campaign account, Citizens to Elect Mike McDermott.

Further, I am submitting a request to the Director requesting a waiver of any penalties and fees associated with the late filing of the most recent post election Committee Report. As can be viewed in my files, I earnestly sought to close this account following the primary election in June. I requested, and received, assistance from staff in how to indicate candidate loan debt forgiveness on my report (this was very unclear). Having performed this task, i thought the report was accepted as my "Final Report" and I sent a hard copy letter to the board indicating my desire to forgive all candidate campaign debts which may have remained outstanding.

I was surprised to receive a postcard indicating that I was being penalized for failure to file a timely report in November. I immediately contacted your office and you provided me with expert assistance in cleaning up the report. There is no way I could have done this on my own.

i have never filed a late report throughout many election cycles and had no intention of filing one late at this time. Therefore, I ask that my penalty be waived and will forward similar correspondence with the Director.

Godspeed Sir. You were a great help to me an a credit to government service!

Michael A. McDermott, former Delegate 38-B, Worcester Co. Chairman.

State Board of Elections

To Whom It May Concern:

I am submitting this letter requesting leniency and if possible a waiver from the fees charged against my campaign account.

While attempting to complete the report due 8/28/2018 I logged into my Campaign Finance account and did not have a button or opportunity to select filing an ALCE. I tried over several days logging in and logging out and still did not see the ALCE button as part of my online options.

I attempted to contact the office of Campaign Finance and was finally able to speak with someone after Labor Day, on Tuesday September 4th. Ms. Patricia Ramallosa attempted to help me and I sent her an email with a screenshot to document my login not having a ALCE option. Through that conversation Ms. Ramallosa sent me a paper copy of the ALCE to complete and send back, she also pointed out that the treasurer's login may have the ALCE option, which I said I would have them check. Ms. Ramallosa then transferred me to Ms. Victorica Smith to see if with the documentation I provided would allow me to be exempt from the past due fee.

In all the phone conversations and emails over September 4th, I was mistaken and thought a review of any overdue fees was being reviewed. This letter is to formally document that I did not have an option to choose the ALCE for some reason and ask for leniency. I have since filed the report as well as the next and hope you can see I was making the best possible effort I could.

Thank You for your time and consideration.

Sincerely,

James A. Newcomb Jr.

Dear Ms Lamone,

Vicki Molina suggested that I write to you to request a waiver of any penalties associated with filings for Friends of Reggie Oldak. I was treasurer of Friends of Reggie Oldak, a publicly financed campaign committee. Reggie Oldak ran unsuccessfully in the June 2018 primary for the Montgomery County District 1 Council seat.

I mistakenly thought that I had closed the campaign with our final filing on August 28, 2018 showing a zero balance. In accordance with public financing rules, we refunded \$1,986.88 to Montgomery County at that time, and with a zero balance in our checking account, we closed the committee's account.

Apparently, I was mistaken in my believe that this was a completed final report closing our campaign. After a conversation with Vicki Moina, I made another filing checking the correct boxes indicating that the campaign had closed its books.

We have been out of the area for several weeks and have found mail upon our return. I am now seeking a waiver of any fines or penalties.

Thank you for your attention to this matter.

Sincerely,

Mike Oldak
Treasurer

Dear Victoria Molina

In response to your letter of November 14, 2018, I would request that the late fee of eighty dollars be removed. We are a small organization with very little movement in the political field. We are all volunteer and spend most of our time working to improve the fire service in Prince Georges County. I am not the greatest person when it comes to using the computer and do make mistakes. Our funds are very limited and would greatly appreciate not having to spend the funds for my mistake.

To Whom It May Concern:

We received a late fee bill (CCF ID 03007883) for the 11/20/18 report due date that wasn't received until 11/26/18. We get so many emails daily, that we usually wait to receive a postcard in the mail regarding when the reports are due, and we don't notice when the emails arrive. However, in October, our office moved to a new location, so the postcard is in the process of being forwarded by the post office and we have not received it yet. As soon as we noticed our report was late, we immediately submitted it online.

I want to know if the late fee can be waived at this time because of the above-mentioned circumstances. We are very good about reporting on time and we hope you can waive this fee for us.

If you have any questions, please contact Esther or Paul at 410-319-0900.

Thank you for your help,

Good morning,

I called about a week ago regarding this to check on the status. I spoke with Ms. Terri who told me to contact Ms. Lamone if I believed I had a valid exception for the lateness. I couldn't find her email address, nor was it given to me. I saw her name is at the top of the notice you sent us, so I hope this message has a way of getting to her. Any help is appreciated.

You may be a little surprised by the series of unfortunate events I believe form a valid exception for the late report. My wife's mother had to go in for emergency surgery on election day. My wife (also, treasurer) had to leave the polling stations immediately. Her father couldn't breathe due to terminal cancer, so he also ended up going in the hospital. My wife handled all medical issues with both parents. Between and during these two crises, her parents could no longer take care of the two grandchildren they've been raising for about 5 years, so my wife and I had to take on the additional responsibility of caring and finding care for them before and after school. We take our neighbors kid to and from school every day also. Beyond this, my grandmother (who happened to raise me) came in from out of town and wanted to see her best friend (perhaps for the last time) and I just couldn't say no, especially because her husband (my grandfather) just passed away in September and left us funds to purchase a vehicle with (that we took my grandmother to visit her best friend in). Of course, there was regular job work and keeping up the community non-profit also. Between all of this chaos, we did try to file, but had trouble figuring out how to file the last report, because there was no activity to file. We tried calling, but outside of school, work, hospital, and caring for so many kids, the offices were closed when we had a moment to talk. There was also a drive for tornado victims who lost all of their belongings in Dundalk and we took part in it. We did work out out this report, but it was late. I apologize for any inconvenience.

We hope that caring for our parents, neighbors, our children and the children of our family and friends in times of crises constitutes a valid reason for exception to a few days lateness. After all, we're in this for our family, friends and neighbors. Please let me know if there are any steps we need to take.

Thank you for taking the time to read this.

Sincerely,
David Rader II

I am the treasurer for the Friends of Wendy Royalty campaign. We recently received a late fee due to my neglecting to file the Affidavit by the deadline of Oct. 26, 2018. I would like to graciously request a waiver of this penalty fee. The campaign has remained in active status for the past 4 years because Wendy has ambitions of running for office again in the future, but has not run since the 2014 campaign. I was doing a lot of business travel and although I did receive the notification that a submission was due soon – it just completely slipped my mind. When I received the late notification on Nov. 5th, I immediately went into the system and filed the Affidavit.

Dear Ms. Lamone:

I am the treasurer for the Friends of Wendy Royalty campaign. We recently received a late fee due to my neglecting to file the Affidavit by the deadline of Oct. 26, 2018. I would like to graciously request a waiver of this penalty fee. The campaign has remained in active status for the past 4 years because Wendy has ambitions of running for office again in the future, but has not run since the 2014 campaign. I have religiously filed the appropriate Affidavit over these past 4 years by the posted deadlines. For the Oct. 26th, 2018 deadline, I missed it primarily because I was doing a lot of business travel and although I did receive the notification that a submission was due soon - it just completely slipped my mind. When I received the late notification on Nov. 5th, I immediately went into the system and filed the Affidavit.

I'd like to ask the SBE to waive the penalty fee, and can assure you that we will not be late again.

Sincerely,

Mark C. Miller

RE: Late Fee Bill - 2018 Pre-General2 Report Gubernatorial

Mr. Director:

On behalf of the Somerset County Republican Central Committee, I am requesting a waiver of the fees and fines imposed for the above mentioned reporting period.

I am requesting this in that attempts were made in good faith to be compliant, but for reasons listed, this did not occur. In fact, my attempt to be compliant started well before the filing deadline. Some of the factors causing the delay were out of my control. I am asking that you take this into consideration when reviewing my request.

1. At the direction of the former committee chairman, I made a deposit on 9/14/18 into the committee's account.
2. My review of past practices, caused me to question the validity of this deposit and I asked the chairman for guidance. When I asked specifically about compliance to campaign finance reporting, I received no guidance. (FYI our chairman has been dealing with serious medical issues).
3. Seeking further guidance I called the Campaign Finance Office on 9/19/18 and expressed my concerns about the appropriateness of the deposit and asked how to take corrective action if the deposit was made in error. I was told by Patricia that someone would get back to me.
4. I waited till the due date of 10/26/18 to file in the hopes that someone would actually reach out to me with guidance. There was no follow-up from the Office. Unfortunately, I was not able to submit a report on the deadline day as I had to undergo some emergency medical procedures, due to an injury.
5. On 10/27/18, I attempted to properly complete a finance report but discovered later that despite my best efforts, I had not done so properly.
6. On 11/2/18 I again called the Campaign Finance Office asking for advice and assistance by leaving a message on its service.
7. Getting no timely response, I phoned the Campaign Finance Office again and spoke with Jessica Perkins and asked for her assistance. Ms Perkins was courteous and helpful. She was patient enough to remain on the line, as she instructed me as to how to complete the finance form. We were both online as we spoke on the phone to complete this task. At this point Ms Perkins and myself thought that I had properly completed the report.

Re: Request for Waiver of Late Fee Bill for account of Terrell, (Julius) For Orphans
Court Judge

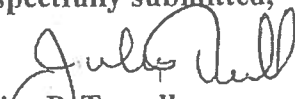

Dear Mr. DeMarinis,

The purpose of this letter is to request a waiver of the late fees assessed against the Campaign known as Terrell, (Julius) for Orphans Court Judge. The reports were inadvertently not filed after we failed to win a nomination in the primary. We operated under the mistaken belief that the reports were not required because we did not receive the votes needed to advance to the general election. After learning that the reports were still due we were unable to have Kim Kelly, Treasurer to endorse the reports, in October and November, because she was tending to several family members who were suffering from grave illnesses.

For the reasons stated above we ask that the said fees be waived. In the event that the fees are not waived please note that the campaign account has less than \$300.00, so that amount would not cover the amount of the fine. We had planned to keep the account open for future campaigning.

This has been a learning experience and will not happen in the future. We appreciate that this matter is being taken under advisement. You may contact me at 202-422-5438 to address this matter. Again thank you for the consideration.

Respectfully submitted,

Julius P. Terrell,
Former Candidate for Orphans Court Judge Prince Georges County

Waiver Request from SBE Failure to File Violation for The District 17 Democratic Slate Team

William Roberts <roberts.wj@gmail.com>

Mon, Nov 26, 2018 at 10:32 AM

To: jared.demarinis@maryland.gov, Victorica Smith -SBE- <victorica.smith@maryland.gov>

Good Morning,

I hope this message finds you well. I'm reaching out regarding a fee running notice I received for the D17 Democratic Slate for failure to file the 11/20 report. Our slate hasn't been spending any funds recently - and with one exception (the first time I filed and misunderstood the system) we haven't had any filing issues. I attempted to file this report remotely last week but I do not recall receiving a conformation email so maybe it didn't go through- and I have to admit I didn't get to check and confirm that it went through so that's on me.

I've filed the affidavit for the 11/20 report today and I'm respectfully requesting that the SBE waive our late fee for failure to file at this time - noting our otherwise past timely filings.

Thank you for your consideration of this request.

Sincerely,

William Roberts

Date of Request: 12/12/18 Total Amount of late fees: \$ 370.⁰⁰

Name of the Requestor(s)*: Sheri M Bond

The Requestor is the: Chairman Treasurer Candidate

Waiver of late fees for the following Campaign Finance Report(s): Oct 26, 2018

The basis for the request: I had a treasurer who quit out in the middle of the election cycle and I asked a friend to help out as the treasurer not realizing she was unable to keep deadlines. ON 9/18/18 we meet and discussed and agreed to writing the last checks to close the bank account and for her to close out the KEPL PAC. Unfortunately, I was not aware she did not follow through and did not know due to the fact I was in the hospital and unable to be near a computer in Md due to phosphenia. Until I received an email yesterday stating we owed a late fee of \$370.00, immediately, I called and worked with your staff to close the KEPL PAC out and are now closed and compliant I am still not ~~well~~ feeling well. and your staff was a tremendous help and I could not have done it without them. Please understand I was try to stay

RE: Delinquent Fee

To Whom it may concern:

I am writing this letter asking for a waiver on the Delinquent Fee of a campaign account. The reason for the late filing, I was trying to file it but for some reason it was not going through the system.

I made several calls to the State Board of election office to get help, but it would only allow me to leave a message for someone to give me a call. I never received a respond from anyone. When I finally spoke with someone on 11/27/2018 they walk we through the process of how to file the report. I ask would I be penalized with a delinquent fee and was inform that I would not be.

Thank you for your consideration and I eagerly wait for your reply.

Sincerely,

JOYCE T. SHERROD

2018 Pre-General I Gubernatorial

Total Amount of late fees: \$ **1150**

The basis for the request: Please accept this request for waiver of fees on this campaign due to the Campaign Chairman and Campaign Treasurer did not receive the email messages nor written correspondences in a timely manner. Also, both parties tried to collectively file close out reports in a timely after Primary Election. But due to lack of instruction, misrouted mail, emails, sickness, and inability to close out the campaign appropriately, fees have accrued and assessed. As of the date of the request, the Campaign Treasurer, Campaign Chairman and Candidate have resumed responsibilities in their respective careers and have proudly graciously served to the best to their ability to file and follow the rules and regulations set forth in the guide and other said guidance as they have received it. Once again, we ask that you honor our request and forgive our Late Fee Bills, Running Fee Notices and Notice to Show Cause-Delinquent Fees. Thank You.
